Dream Weddings

HELLO!

"Hi, I'm Ginny"

I am lucky enough to live on Lake Garda and to have been helping couples get married here in Italy for over 10 years. I will accompany you from the choosing of your location for the ceremony and reception to your first dance. We'll make every step together, agreeing who, what, when and how via e-mails and video calls as well as any visits here to Italy you are able to make.

I love my job and I love helping people and making them happy so ensuring your wedding day the **HAPPIEST OF DAYS** is my dream.

The weddings I have planned range from the most intimate of two people to much larger and more complex events. And I don't have a preference, Every dream is different, as is every budget, so every wedding is unique and special.

The first decision to make

Location, Location, Location !

There are so many incredibly beautiful locations to choose from. Make a list of what you want from your location, how many guests and an idea of your budget and I will send you some suggestions

Choose

Your location, it will be a deciding factor on where you can hold your ceremony

Your Ceremony

Your

Guests are an important part of the ceremony and its lovely to have them surrounding you.

Style

Your wedding to reflect your personalise and the atmosphere you want to create for the day

Flowers & Decor

So much choice !

After the choice of venue I think this is the thing brides and I spend the most time discussing. There is so much choice but there's a balance to be found between what you want to have and what the budget allows for. I have another presentation to help understand possibilities and costs.

In most cases the choice of music that you want will dictate what sort of musician you choose for the ceremony ie classical music works well on a violin but something more modern might work better with a singer. Once you have an idea of what sort of music/musician you want there are

5 obvious points for music :

BRIDAL ENTRANCE

BEFORE YOUR VOWS

EXCHANGE OF RINGS

SIGNING OF THE REGISTER

EXIT OF THE HAPPY COUPLE

Ceremony Music

Photography & video

Photography is very personal and there are such different styles. You need to give this some thought. Consider also that it's not only the style that's important but the rapport you will have with the photographer/videographer. Once your location is booked I'll be able to give you some names to consider for this important job.

Hair & Make-up

When you spend the whole day with every looking at you it's important that you feel confident and comfortable. You want to know that your hair will hold and your make-up won't slip during the heat of the day. I have a number of different contacts for these depending on what's important to you.

Arriving in Style

Depending on your choice of venue this could mean a car, horse & carriage, Tuk Tuk or boat.

Entertainment

There are so many additional touches that you can add to your wedding to give it more facets and to keep your guests entertained.

A few to consider are :

Caricatures - a keep sake for guests to take home

Photobooths also provide a great souvenir

Magicians suit all ages

Fireworks to start the party with a bang

Party Time !

It's great to let loose with your guests and dance like no one is watching. Your music choice might mean you want the atmosphere of a live band or the versatility of a DJ.

Wedding Cake

Traditionally the Italians used to have only single layer cakes, as the requests changed they went quite the other way with show stoppers like these.

How we get started

Or by e-mail

ginny@weddingsatlakegarda.com

It helps me to know

- What style of wedding you want
- How many guests you think you will have
- When you'd like to get married, year month and if you know a specific date
- Budget, more or less what you hope to spend
